It will inform and inspire those who have either never grown *Vaccinium* plants before or have put just a tentative toe in the water and would now like to go in a little deeper. The book contains a wealth of information to get a reader started on growing blueberries, cranberries and even lingonberries."

LEE REICH (Illustrations by Vicki Herzfeld Arlein). 2004. **Uncommon Fruits for Every Garden**. (ISBN 0-88192-602-7, hbk.). Timber Press, Inc. 133 S.W. Second Ave, Suite 450, Portland, OR 97204-3527, U.S.A. (Orders: www.timberpress.com, mail@timberpress.com, 503-227-2878, 1-800-327-5680, 503-227-3070 fax). \$24.95, 308 pp., 51 color photos, 29 line drawings, 1 map, 6" × 9".

Publisher Comments: "Lee Reich provides a valuable guide to fruits and berries that add an adventurous flavor to any garden. Though names like jujube, juneberry, maypop, and shipova may seem exotic at first glance, these fruits offer delectable rewards to the gardener willing to go only slightly off the beaten path at local nurseries. Reliable in the toughest garden situations, cold-hardy and pest-resistant, they are as enticing to the beginning as to the advanced gardener. This expanded sequel to the author's celebrated *Uncommon Fruits Worthy of Attention* offers new fruits, new varieties, and new photos and illustrations to entice the reader into an exciting world of garden pleasure."
